

NEW PUBLICATIONS.

ECONOMICS FOR THE PEOPLE, BY R. R. BOWKER
16mo, pp. vi, 279. Harper & Brothers.

Mr. Bowker gives us in this little book a series of "plans," adapted especially to young people and women. He traverses a broad field, surveying with rapid glance the science of wealth, the laws of trade, the relations of capital and labor, theories of rent and prices, the nature of money, banks, wages, co-operation, socialism, taxation, and various other branches of his comprehensive subject. It might be objected that he takes a great deal of unnecessary pains with some elementary propositions, and hinders past the real difficulties; but his plan did not contemplate a profound treatise, and he has at least the merit of making his meaning clear to the humblest comprehension. He disproves of the American doctrine of protection; but we do not believe that his remarks on that subject will do much harm. A closer attention to syntax would improve his style. One of his illustrations is an anecdote of an ignorant woman who "had to lay aside a good part of the day to kill time." If she had devoted her burdensome leisure to the English grammar she would have known better than to talk about laying a-bed.

THE HISTORY OF THE ANTI-SLAVERY CAUSE IN STATE AND NATION, By Rev. Dr. AUSTIN WILLEY, 12mo, pp. xi, 560. D. Appleton & Co., Boston and New York.

Mr. Willey was one of the original anti-slavery men in Maine, and the editor of a journal under various names—*Advocate of Freedom, Liberty Standard, and Portland Inquirer*—maintained the cause of immediate emancipation with untiring vigor through the hardest years of the struggle. In this volume the veteran has reviewed the history of the abolition movement in the nation at large and has given a particular attention to the course of affairs in the State with which his own labors were so closely identified. All such consecutive and detailed records of a great warfare, from the pens of the chief combatants themselves, have a dramatic interest as well as a permanent value, and they will be regarded hereafter among the most curious materials for the history of the nineteenth century. Mr. Willey has lost none of the honest anger or polemical spirit of his fighting days, and his comments upon respectable mobs and trucking churches are as peppy as if they were remarks upon the day's news.

New Publications.

"A great and noble work."—Boston Beacon.

CYCLOPEDIA OF PAINTERS AND PAINTINGS. Edited by JOHN D. CHAMPLIN, Jr.

CRITICAL EDITOR, CHARLES C. PERKINS. Four volumes quarto, with more than two thousand illustrations. Price, \$25 per volume.

This edition limited to 500 numbered copies, containing full-page reproductions by photogravure, &c., which will be used in these copies only.

It covers the whole of painting from earliest times down to 1850. Not only is a sketch given of every painter, ancient and modern, and of every nationality, but each picture is interred and described under its own title, thus adding a great value to the work in making it also a dictionary of subjects. The labor involved is almost incalculable.—*The Examiner*.

No art book of the exhaustiveness of this monumental work has been attempted in this country, and this ambitious undertaking should be appreciated by those who stand in need of a complete, well arranged, and well-edited book of reference.—*New-York Tribune*.

The most important art publication undertaken by any American house.—*Bronx Eagle*.

Send to the publishers for a descriptive circular.

CHARLES SCRIBNER'S SONS,
745-745 Broadway, New York.

SECOND EDITION.

WHAT WE REALLY KNOW ABOUT SHAKESPEARE.

BY MRS. CAROLINE H. DALL, 11mo. cloth. Price \$1.25.

"Mrs. Dall was led to the preparation of her handbook of Shakespearean information by the fact that such information has been too far scattered and inaccessible, and because the number and insistence of certain theorists or historians have tended to obscure the knowledge of the man Shakespeare in the attempt to disprove his claim to the authorship of the plays that have been considered to have been long after him, and the world has been compelled to accept his authorship. In addition to the history of the family, the history of the family, the histories of his houses, and other records are presented in a more solid form and with no pretense to exhaust research, the book contains enough material to satisfy the most exacting inquirer concerning every known of the dramatist as well as his life and reigns."—More detailed sources of information.—*N.Y. Commercial Advertiser*.

Sold by all booksellers. Mailed, postpaid, by the publishers.

ROBERTS BROTHERS, Boston.
